INTRODUCTION

Did you know that penis size can vary from less than 7 cm to more than 20 cm when erect?. Did you know that some penises develop a curvature that can interfere in sexual relations?. Did you know that there is an old technique used to allow the penis to grow both in length and girth, and to also correct curvatures? Did you know that after a penile surgical procedure it is necessary to stretch the tissues in order to avoid the loss in length due to retraction effect while healing?.

Andromedical® was created in 2000 to answer all these questions and to offer a reliable medical solution to doctors (urologists, andrologists, sexologists) and to all men. **Dr. Eduardo Gómez de Diego** saw more than a thousand men in his clinic before starting to investigate a proper response to them with the **Andropenis®**. Today, there is still a lack of information regarding penile issues. Men are less likely than women to visit a doctor, or to talk about sexual related topics. Nonetheless, there has been an upsurge recently regarding sexuality or men's health content in the internet, magazines, radio stations and tv channels.

The mass media have come to understand the importance of including sex topics in their general health-lifestyle contents.

How has **Andromedical®** contributed to all this? By developing a strategy towards the media, consisting of offering all kinds of scientific data, general information and press releases related to penis size and the scientific explanation behind the **Andropenis®**. **Andromedical®** has made available to the media more than a dozen studies carried out by prestigious urologists, presented at international medical congresses and published in medical journals.

Regardless of the infinite number of web pages dedicated to the penis, men, and the public in general, do not know that there is a medical, simple, non surgical answer to curvatures or to penis size. And there is. **Andropenis®** carries **CE** Health Authorities Certification as **Type 1** medical device, and the company has been certified with the quality standards certification **UNE-EN-ISO 9001:2000** and **UNE-EN-ISO 13485:2003**. It is the world's leading company offering a guaranteed solution to penis

size and curvature correction. There is a growing network of doctors worldwide working with the **Andropenis®**, and offering advice to patients regarding the treatment. Andromedical has also its own department of professionals with medical training offering information and support for clients per phone and e-mail.

Zu kurz geraten? Spannen verlängert den Penis

Medical Tribune Bericht

VANNUERG - Obwohl die Standardgröße durchaus einzu sein zu kurzen Penis zu haben. Er überlegt es sich. Doch es gibt auch eine weniger drastische Möglichkeit zu lassen.

Die Technik klingt harmlos, scheint aber tatsächlich zu funktionieren, nicht man ihn wieder in die Länge. Allerdings ist ein weiterer Spannvorgang in Form Irrigation in speziellen Verfahren Dr. Gersmann R. Cohn und Kollegen der Universitätsklinik Maastricht das Andre (Namen) nicht noch vier Monaten "Penis-Dehnung" einen Längerzug zugehörige Studioteilnehmer, die ihren Penis 7 - bis 9 Zentimeter zwischen 2,4 und 3,1 cm zusätzliche Länge vergrößern.

andro penis

the only effective non-surgical solution for the treatment of Peyronie's Disease

AndroPenis® is a medical device used to apply progressive traction force of between 400 to 1500 grams to treat penile curvatures and Peyronie's Disease.

AndroPenis® offers doctors and patients an effective and affordable method for:

- Treatment of Peyronie's Disease or penile curvatures.
- Treatment of penile enlargement without surgery.
- Post-Operative treatment of penile surgery to avoid scar retraction.
